

Rec'd PCT/PTO 03 FEB 2005

Applicant, Tadao Ono, hereby petitions the Commissioner of Patents under 37 C.F.R. § 1.182 to change the spelling of his name from Naoki Ono to Tadao Ono in the PCT application from which the subject application was nationalized. As attested to in

the attached statements of this inventor and a person having first-hand knowledge of the error and how it occurred:

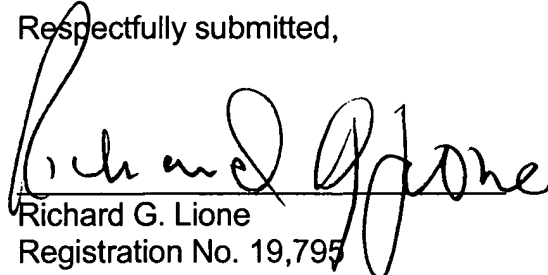

1. Tadao Ono is, in fact, a co-inventor of the invention in METHOD FOR STABILIZING REDUCED COENZYME Q₁₀ AND COMPOSITION THEREFOR disclosed in application PCT/JP03/00394 filed in Japan on January 20, 2003;
2. Tadao Ono's first name was correctly recited in Japanese characters in the aforementioned PCT application when it was filed but was incorrectly translated into English whereby the English spelling of his name is incorrect in the PCT application;
3. the incorrect spelling occurred without Tadao Ono's knowledge, inadvertently and without any deceptive intent on his part;
4. Yasuo Yasutomi's statement explains that he has first-hand knowledge of the error, how it occurred and when he discovered it, because he was responsible for filing the PCT application, and that the incorrect spelling occurred inadvertently and without any deceptive intent on his part;
5. On September 14, 2004, Tadao Ono executed a Declaration in the subject application, which Declaration was prepared under Mr. Yasutomi's direction and sets out Mr. Ono's correct name, a copy of which Declaration is attached hereto.

Whereby, the facts being as hereinbefore set out, it is respectfully submitted that this Petition should be granted, that the record in the subject application should be

corrected to identify the third listed inventor in the aforementioned PCT application as Tadao Ono.

Please charge the petition fee required by 37 C.F.R. § 1.17(h) to Deposit Account No. 23-1925. A duplicate copy of this petition is attached.

Respectfully submitted,

**STATEMENT OF TADAO ONO
IN SUPPORT OF PETITION TO
CORRECT INVENTOR'S NAME**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Tadao Ono hereby states that:

1. on January 18, 2002, Japanese patent application 2002/9737 was filed in Japan correctly naming him in Japanese characters as a co-inventor; and

2. on January 20, 2003, PCT application No. PCT/JP03/00394 was filed in the Japanese Patent Office, claiming priority from Japanese Application No. 2002/9737 and correctly identifying him as TADAO ONO in Japanese characters but erroneously translating his name in English as NAOKI ONO; and

3. because the PCT application was prepared and filed by patent counsel for Kaneka Corporation, the assignee of the applications, he did not see the PCT request before it was filed; and

4. he first learned of the error when advised of it by patent counsel on or about September 1, 2004; and

5. the error in the English translation of his name in the PCT application occurred inadvertently and without any intent to deceive on his part.

The foregoing statements are true to the best of his knowledge.

**STATEMENT OF YASUO YASUTOMI
IN SUPPORT OF PETITION TO
CORRECT INVENTOR'S NAME**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Yasuo Yasutomi hereby states that:

1. he is patent counsel to Kaneka Corporation, assignee of the above-identified application; and

2. Japanese Patent Application No. 2002/9737 was prepared and filed in Japan and correctly identified TADAO ONO in Japanese characters as a co-inventor; and

3. PCT Application No. PCT/JP03/00394 claiming priority from Japanese Patent Application No. 2002/9737 was prepared and filed in the Japanese Patent Office under his direction, and it also correctly identified TADAO ONO in Japanese characters as a co-inventor; and

4. when the request for the PCT application was prepared under his direction, the Japanese characters for TADAO in the request were incorrectly translated (in a parenthetical expression of his name) to NAOKI, and he did not notice the incorrect English spelling at the time; and

5. a Declaration for the above-identified U.S. application was prepared for transmission to U.S. associate counsel under his direction in September 2004, and at that time he discovered that the English spelling of TADAO ONO'S first name was incorrect in the published PCT application; and

6. the inventor's Declaration for the U.S. application was then prepared under his direction with the correct spelling of all names, and TADAO ONO executed that Declaration on September 14, 2004; and

7. he informed his associate U.S. counsel of the error at the time and instructed him to petition the USPTO for correction in a timely fashion; and

8. the error in the English translation of TADAO ONO'S name on the PCT Application occurred inadvertently and without any intent to deceive on his part.

The foregoing statements are true to the best of his knowledge.
